Under the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number.

3. Terminal disclaimer with disclaimer fee

- ☐ Since this utility/plant application was filed on or after June 8, 1995, no terminal disclaimer is required.
- ☐ A terminal disclaimer (and disclaimer fee (37 CFR 1.20(d)) of \$ _____ for a small entity or \$ _____ for other than a small entity) disclaiming the required period of time is enclosed herewith (see PTO/SB/63).

4. STATEMENT: The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 CFR 1.137(b) was unintentional. [NOTE: The United States Patent and Trademark Office may require additional information if there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137(b) was unintentional (MPEP 711.03(c), subsections (III)(C) and (D)).]

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

Date: 2 February 2007

Dear Sirs,

On February 2006 I received a letter from the examiner of the United States Patent And Trade Mark Office Mr. Gabriel J. Klein that informed me that my Patent Application with the number 10/522,271 needed some corrections.

The same period, on February 2006, I had an accident for which, on April 17 when my situation allowed it, I had an operation on my left knee. I am active police officer and the accident was so serious that I am still out of duty because I have not recovered yet. All the same I tried to make the corrections even when I was in the hospital so as to send them before the expiration of statutory period for reply.

I send it by Registered Mail on 28th April 2006, having the certainty that it should arrive in 2-3 days at the USPTO.

Since then I had no news, so I called Mr. Klein on August to ask him if he had examine the corrections and when I was going to receive my US Patent. He informed me that the corrections had arrived but he had not examined it yet.

Two months later about the end of October 2006 I called him again to ask if he had examine the corrections, but he told me that the corrections of my Patent Application are at the USPTO but he could not examine it and he did not know the reason.

Since then I called him several times but the response was always the same and he promised that he should ask his supervisor about it and that he should informed me immediately, but the last month (January 2007) I had no news from him and I also could not find him at all at the phone.

So, at the fists days of February, I decided to call other Department of USPTO to ask if anyone could give me some information for my Patent Application.

The employee with which I spoke on the phone searched in my Patent Application file and informed me that the corrections had arrived three days later than the statutory period for reply and for that reason my Patent Application was deemed to be abandoned by me and that I have to send at the USPTO the Petition for Revival of an Application for Patent.

The employee also informed me that the USPTO should have sent a Notification for Patent Abandonment but this notification was never sent to me by the USPTO like it is imperative.

I do not know who is responsible for that dereliction of duty but for the above reasons I request for your understanding and for the revival of my Patent Application.

I will send you immediately all the proper documents by Registered Mail.

Yours Respectfully
Dimitrios Mantas

To Whom It May Concern

Mr. Dimitrios Mantas was operated on Monday April 17, 2006 and was subjected to anterior cruciate ligament reconstruction of his left knee due to rupture of the ligament sustained after an accident (twisting injury after falling from the stairs) which occurred on February 9, 2006.

The postoperative course was uneventful and following intensive physiotherapy for 4 months the function of his knee was restored.
